LEARNING WITH A COLLABORATIVE APPROACH

Jaén, 17th and 18th September 2024

SPEAKERS: Dr. Javier Martínez Gámez - Head of department vascular surgery
Dra. Elena Herrero

DESCRIPTION

The training course in peripheral endovascular techniques includes a face-to-face stage distributed in a day and a half. First day includes a theoretical introduction and the second part clinical cases in a real hospital environment.

ADDRESSED TO

Young vascular surgeons, students

PARTICIPANTS: 4 participants

DESIGN: 1,5 days (presentation& discussion, hands-on, live cases)

TARGET DATE

Date | 17 and 18 September 2024

LOCATION

Complejo Hospitalario de Jaén
Hotel Condestable Iranzo

OBJECTIVES

GENERAL OBJECTIVES

Improve skills in the handling of endovascular techniques through training in real cases.

SPECIFIC OBJECTIVES

Pre-plan the cases with the different materials available for the treatment of the vascular pathology to be treated.

Be acquainted with the different materials to perform recanalization and embolization techniques according to the sectors and pathology to be treated.

Acquire supra-selective catheterization skills of the vascular sectors.

Perform simple and stent implantation angioplasty techniques

Perform embolization techniques using controlled release coils.

Perform techniques for implantation and fixation of coils; anchorage, indirect embolization.

Deal with the potential problems that might arise when performing then transmitted technique and come up with the best solutions.

Learn about the strategies for complex lesion crossing in Femoro-pop and below the knees.

Experiment lesion crossing with the different tools and techniques.

AGENDA

DAY 1

Location: Hotel Condestable Iranzo

18:30 Arrival and welcome message. Drs. Javier Martínez Gámez

18:40 Review the different anatomical/ clinical indications for Carotid Artery Stenting (CAS); Dr. Javier Martínez Gámez

19:00 Pelvic congestion syndrome: update. Dra. Elena Herrero

19:20 Femoropop sector: clinical update. Dr. Javier Martínez Gámez

19:40 Product overview: RENZAN. Juan Manuel Lozano

19:50 Vascular surgery from a nursing point of view. Ana Martínez y Esther Armentero

20:10 Clinical cases- What would you do? Dra. Almudena Cañete

20:20 Closing. Dr. Javier Martínez Gámez

21:00 Dinner

AGENDA

DAY 2

Location: Complejo Hospitalario de Jaén

08:30-09:30. Live case: **Carotid artery stenting**

Endovascular techniques: supraseductive, catheterizations, recanalization, angioplasty and stenting (Roadsaver)

10:00-11:30. Live case: **Femoropop procedure**

Endovascular techniques: supraseductive, catheterizations, recanalization, angioplasty and stenting (Renzan)

12:00- 13:00. Live case: **Pelvic Congestion Vein (PCS)**

Endovascular techniques: supraseductive, catheterizations and embolization (Azur detachable)

14:00 Recap and departure
